

360...Where Kids
LOVE to Dance!

2012-2013 PROGRAM & CLASS DESCRIPTIONS

Open Dance Program

The open dance program is designed for students three years through adult and includes the 360 KIDS, Open (Recreational) Dance, Technique and Hip-Hop classes. These classes are open to all students new to dance and 360, as well as continuing 360 dancers. Students may enroll in ballet, tap, jazz, hip-hop and technique. All students in the Open Dance Program are encouraged to participate in the performance opportunities available at 360 Dance including our mid-year show and 360 Live! (our end-of-the-year show). Descriptions of each division within our Open Dance Program are listed below.

♂ 360 KIDS

360 KIDS dance classes give children three to seven years of age the freedom to express their creativity through dance, tap or jazz movement. Using music, props and inventive exercises, our staff provides a fun and loving atmosphere that sets the stage for future advancement into other 360 programs. Activities are designed to develop self esteem and an awareness of others. Benefits to your child include increased motor/skill coordination, physical flexibility, social skills, such as following directions and learning physical concepts like energy and speed. This program is offered in two sessions throughout the year to increase interest and enhance creativity. Session 1 will last from September-December and Session 2 will last from January-May. Performance opportunities will be available at our 360 show upon the completion of each session. Though it is not mandatory, students are encouraged to participate in both sessions.

Competitive Dance Program

♂ 360 Competitive Dance Teams

360 Dance offers a variety of competitive dance teams for all ages. Students participating in this program undergo a rigorous training and rehearsal regimen that culminates in performance opportunities between January and May with a grand national competition in June or July. August auditions determine which 360 students will participate with the program's competitive dance teams. Staff and/or professional choreographers create unique dance pieces for the groups which travel to dance conventions and competitions throughout the country performing in contemporary, jazz, lyrical, musical theater and hip-hop categories. Our competitive dance teams dominate the tri-state area in winning numerous Regional and National Championships. Students in the competitive dance program take a pre-determined number of ballet and jazz technique classes each week in addition to hip-hop. They may also be eligible for additional classes to help maintain their performance skills edge.

♂ 360 Allstar Dance Teams

360 Dance has a tryout in April/May of each year to select its 360 Allstars. Anyone making the 360 Allstars is required to take a pre-determined amount of technique and ballet classes each week. 360 Allstars must also participate on 360's national competitive dance teams. The 360 Allstar teams may attend 1-2 regional competitions between September and January and UDA Nationals in Orlando, Florida in February.
